Bulling is not tolerable and will not be tolerated at Cessnock High School or in our local community.

On the 15th of March we are asking the community of Cessnock to join with us to make a commitment to Bully Proof the school and the local community.

All students, teachers, parents, caregivers, businesses and general members of the community are invited to attend.

The Cessnock High School Anti Bullying Policy update will be launched on this day and information will be given about what students should do if they feel they are being bullied in person or online.

An art show of the entries for the Stop Walk Talk poster competition will be on display in the school grounds.
